Usage of “Wayne State is a smoke-free campus”

Wayne State University on Aug. 19, 2015, adopted a smoke- and tobacco-free policy for indoor and outdoor spaces across its main campus and extension centers. The WSU Office of Marketing and Communications has produced smoke-free campus logos for use in print and electronic media to help schools, colleges and departments spread the word about this new policy. Let’s work together to keep Wayne State University healthy, clean and welcoming to all who learn, work, visit and do business here.

For more information on the policy, visit wayne.edu/smoke-free. For more information on how to use the logos, contact Christa Raju, director of creative services, at 313-577-8157 or ak5168@wayne.edu.
